

1090 GEN 2 SERIES

THE NEXT GENERATION OF III+

Under both NIJ 0101.06 and NIJ 0101.07 standards, most manufacturers are focused on defeating the old 5.56mm M855 green tip round when they want to label a plate III+ or RF2.

1090 Generation 2 goes beyond these obsolete standards and defeats the new and devastating M855A1 round in addition to M855, M80 Steel, 7.62X39 API-BZ, and more.

- STANDALONE THREATS
 - 7.62X39mm API-BZ, MSC, & FMJ
 - 5.56mm M855A1, M855, & M193
 - 7.62X51mm M80 STEEL JACKET, FMJ
 - NIJ 07 RF2 DRAFT RATING
- LIGHTWEIGHT
- AFFORDABLE
- AVAILABLE IN SMALL, MEDIUM, LARGE, & EXTRA LARGE
