

1165²
Dyneema®

ADVANCED ARMOR. MADE AFFORDABLE.

RMA's Generation 2 1165 has changed Level IV/RF3 plates forever. At only 5.5 lbs for medium 10X12 Shooter's Cut, and 6.3 lbs for Medium SAPI, and 0.7" thin with multi-hit Level IV/RF3 protection, there's nothing else like it anywhere close to its price.

The 1165 Gen 2 combines our all-new Hypure Alumina 99.7 strike face with a Dyneema® UHMWPE backer for incredible weight reduction without sacrificing performance.
